

[ECS GEIE](#) - a European group of independent companies, founded on the desire of its members to offer each of their clients a network of selected companies, chosen for their common values of efficiency and quality.

Within Europe all projects are managed in the same manner, with one account manager for our clients for all European services. The ECS network offers consistency in methods and quality in all sectors of activity in all countries.

ECS are pro-active and are continually developing and evaluating new techniques and methods for use in sectors where it is fundamental to its clients' operations.

Main features of the organisation:

- European Economic Interest Grouping
- Network of independent private owned companies
- Covers 11 western European countries :
France, UK, Spain, Germany, Austria, Luxemburg, Belgium, Holland, Italy, Ireland, Swiss
- In progress in 2009 : Czech République, Greece, Portugal, Poland
- Answers the needs of large European customers
- Provides cleaning and other facility services
- Best-in-class through skills sharing :
technical know-how, processes, training, controls, ...
- All member companies are ISO certified
- Centralised communication : customer has one single point of contact for all its European operations
